

ARUN P

Full Stack Developer

+91 7736819152 | nmsarun33@gmail.com | GitHub | LinkedIn | Portfolio

Professional Summary

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing responsive user interfaces, REST APIs, JWT authentication, role-based authorization, database-driven applications, payment integrations, and admin dashboards. Strong understanding of JavaScript, TypeScript, React Hooks, API integration, MVC architecture, Git, and GitHub. Experienced in building and deploying real-world web applications with a focus on clean, reusable, and user-friendly solutions.

Technical Skills

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, TypeScript

Database: MongoDB, SQL, Firebase

Architecture: MVC (Model-View-Controller)

Tools: Git, GitHub, VS Code, Postman

Projects

Food Court — Food Ordering and Management System

Live · GitHub

React.js, TypeScript, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Razorpay, Cloudinary

- Developed a full-stack food ordering and management system using the **MERN stack** with separate user and admin workflows.
- Built responsive React interfaces for food browsing, search, category filtering, cart management, checkout, and order tracking.
- Developed **REST APIs using Node.js and Express.js** for authentication, food items, cart, orders, payments, and admin operations.
- Implemented **JWT authentication, role-based authorization, Razorpay payments, and Cloudinary image uploads.**
- Developed an admin dashboard for managing food items, users, orders, revenue, analytics, and PDF reports.

Shoezy — Footwear E-Commerce Platform

Live · GitHub

EJS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, Passport.js, Razorpay, Cloudinary

- Developed a full-stack footwear e-commerce application using **Node.js, Express.js, MongoDB, and EJS** following the **MVC architecture.**
- Implemented product browsing, search, filtering, cart, wishlist, coupons, wallet, and order management.
- Built authentication using **Passport.js, Express Session, bcrypt, and Google OAuth 2.0.**
- Integrated **Razorpay** for online payments and **Cloudinary** for product image management.
- Developed an admin dashboard for managing users, products, categories, coupons, orders, sales, and revenue.

Mini Projects

E-Sports Live Football Tracker

GitHub

React.js, TypeScript, Vite, React Router, Axios

- Built a responsive football tracking application displaying live scores, match details, league information, and team standings using external APIs.
- Developed reusable React components with React Router, Axios-based API integration, custom hooks, and mobile-responsive UI.

Car Wash Booking System

Live · GitHub

React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, Tailwind CSS

- Developed a MERN-based car wash booking platform with service selection, vehicle management, slot availability, bookings, and booking history.
- Implemented JWT authentication, role-based authorization, Razorpay payments, wallet refunds, and an admin dashboard for managing services, bookings, users, and reports.

Education

MERN Stack Development

Brototype, Kochi, Kerala

Intensive hands-on training focused on building scalable web applications using JavaScript, MongoDB, Express.js, React, and Node.js.

B.Com

PCC – Parappanghadi Co-Operative College

Affiliated with the University of Calicut. Completed three years of the B.Com program, with the degree pending completion of the remaining papers. Studied commerce and business fundamentals before transitioning focus to software development.

Computer Commerce – Higher Secondary Education (+2)

GVHSS, Chettiyankinar

Studied commerce fundamentals along with computer applications, which later supported the transition into software development.
